

2024 PDRA Contingency Program | Rules and Regulations

All PDRA competitors have the opportunity to participate in our contingency program.

To be eligible for contingency awards, contingency sponsor decals must be on both sides of the vehicle, in visible locations, before eliminations begin until the end of the event.

Competitors must adhere to the specific decal-display requirements below:

- Decal must be exact size and design of company's contingency decal.
- One decal is required for each product posting.
- Decals placed on vehicles once eliminations have begun will not be eligible for verification.
- Decal stacking is not permitted. A separate decal for each posting is required.
- Decals placed on the inside of spoiler/wing spill plates are not eligible for verification.
- Decals placed on front or rear valance/bumpers are not eligible for verification.
- For each category posting, only one decal is permitted. Decals from competing companies for the same product will void all claims for the product category.

Claims that do not comply with all contingency program requirements are subject to disciplinary action in the sole and absolute discretion of PDRA. Penalties may include but are not limited to loss of claim, loss of all claims for an event, and/or being suspended from the contingency program.

Decals are available in the PDRA Registration trailer at all PDRA events.
